Sub Category

Subject Difference between ASTER DARs and DARs

Description of Problem or Suggestion:

Some requirements refer to "ASTER DARs" while others refer to "DARs". Is there a significance to this difference? Are the capabilities identified to support ASTER DARs going to be needed to support DARs for post-AM-1 instruments? Note that many instruments "run all the time" and do not use DARs.

Originator's Recommendation

Rewrite the requirements to remove the ambiguity.
